Education

- **G H Rasoni College of Engineering and Management** 2023 – Present
B.Tech in Artificial Intelligence and Machine Learning — CGPA: 8.72 Pune, India
- **Air Force School Chandan Nagar** Completed 2021
Higher Secondary (12th) — Percentage: 89% Pune, India

Projects

- **AI Complaint Categorization System for Hostel Management**
 - Developed an AI-based system to automatically categorize hostel complaints.
 - Implemented machine learning and NLP techniques to classify complaints into categories such as maintenance, cleanliness, and security.
 - Built backend using Python and integrated database for storing complaint records.
 - Improved hostel complaint workflow by automatically routing issues to the appropriate department.
- **AI Resume Analyzer**
 - Developed an AI tool that analyzes resumes and provides suggestions for improvement.
 - Used Natural Language Processing techniques to match resumes with job descriptions.
 - Built backend APIs using FastAPI for resume processing.

Technical Skills

- **Programming Languages:** Python, Java, JavaScript
- **Frameworks:** Spring Boot
- **Web Development:** HTML, CSS, React
- **AI / ML:** Machine Learning, Natural Language Processing
- **Databases:** MySQL
- **Tools:** Git, VS Code

Achievements

- Selected in the Top 50 teams from the college for Smart India Hackathon (SIH).
- CGPA 8.72 in B.Tech Artificial Intelligence and Machine Learning.
- Scored 89% in Higher Secondary (12th).
- Developed multiple AI and software development projects.

Other Interests

- Artificial Intelligence and Machine Learning
- Full Stack Development
- System Design and Scalable Software Engineering
